How To Use This Guide

Use the Table of Contents and identify the vehicle model and scroll to the appropriate page. You will note that some examples illustrate schemes with accent paint and decals/graphics and other illustrations are showing Full-Body Paint schemes. You can select the proper code by the accompanying color description.

The exterior graphics package is designated by a 3-digit option number (Examples: 27G, 92K). If unsure of a graphics package because the color descriptions are similar, you can confirm the correct exterior paint option number from several sources:

- The vehicle’s optional equipment list which can be found in the Operator’s Manual Supplement
- The Motor Home Component Information Sheet found in the motor home InfoCase
- The vehicle’s original window sticker
- Winnebago Industries dealerships can access paint information for a specific motor home. Using the coach serial number, go to Vehicle Information/Appliance Model/Serial. This will indicate DuPont/Axalta or CDI/Sikkens and give the corresponding paint code
- The information can also be accessed by serial number on our website at <http://dealer.winnebagoind.com/unitsearch/parts.htm>. Below are examples of what to look for in the serial parts listing:

WINNEBAGO SERVICE PART ALPHA LIST 10P73441 WKR42QD MFG DATE: 05/08/12
